

REGISTRATION AND COURSE OFFERINGS

Students below you will find the courses you will be able to take this year. Those of you who are returning have already chosen the classes you must take but now you will need to pick out some electives that you may have wanted to take but couldn't because of the classes you had to take. Classes such as the Constitution class was paired with Facing History, now you can still choose Facing History or you can choose another 1 trimester Social Studies class. This will be the same for all departments. Most classes will be 2 trimesters, some will be 3 trimesters and others will be just 1 trimester. All students will take 5 classes per trimester – no study halls – and everyone will need to take at least 1 trimester of PE each school year. Do not choose more than 5 (2) trimester classes and all your classes combined should equal 15 trimesters. **Choose alternate electives.**

() number indicates trimesters

* graduation requirement
